---

Profile

.NET Developer with hands-on experience in C#, ASP.NET Core, MVC, and Entity Framework Core. Skilled in building structured, scalable applications using SQL Server and Angular. Strong in problem-solving, debugging, and clean architecture design. Seeking to advance as a Full-Stack Developer and contribute to high-performance, maintainable software solutions.

Internships

Intensive Training Program – (ITP) — Jul 2025 – Nov 2025
Full Stack Developer Using .NET Track, Information Technology Institute (ITI) — Tanta Branch

Digital Egypt Pioneer Initiative (DEPI) — Oct 2024 – May 2025
Full Stack .Net Developer Track — ITC Collage, Tanta

Future Work is Digital (FWD) — Aug 2022 – Nov 2022
Front end Web Developer, Ministry of Communications and Information Technology (MCIT) — Online

Summer Code Camp — Jul 2021 - Aug 2021
Front End Web Developer, Information Technology Institute (ITI) — Mansoura Branch

---

Education

Bachelor of Computer Science — Sept 2018 – Jul 2022
Zagazig University
Graduation Grade: Very Good (B)
Graduation Project: A mobile App to detect Corona Virus from X-ray Images – Grade: Very Good (B)

Work Experience

Cashier – Awlad Eissa Trading Company, Zefta — Dec 2023 – Jul 2025

- Handled daily cash transactions and maintained accurate payment records for an average of +200 customers daily.
- Ensured 100% accuracy in cash reconciliation and end-of-day reports.
- Supported inventory tracking and coordinated with the accounting team to streamline financial operations.
- Provided excellent customer service and contributed to maintaining a high customer satisfaction rate.

Projects

Netflix Clone Streaming Platform (Angular & ASP.NET Core)

Developed a full-stack streaming platform identical to Netflix in both design and functionality

Asp.Net Core Api, C#, Angular, Entity Framework ORM Code First, DDD, Mono Repo, MediatR, CQRS

- Applied Domain-Driven Design (DDD) with clean separation of layers.
- Built the frontend using Angular Monorepo (NX).
- Implemented JWT authentication, subscriptions, and Stripe payment gateway.
- Added real-time notifications using SignalR.

- Created an Admin Dashboard with reports, pagination, and filtering.
- Used Entity Framework Core with SQL Server for data persistence.
- Containerized the application using Docker and published images to Docker Hub.
- Set up CI/CD pipeline with GitHub Actions for automated build and deployment.

Job Portal System

ASP.NET Core MVC (Razor Views), Entity Framework Core, SQL Server

- A full-stack professional job portal connecting employers and job seekers.
- Implemented role-based management for Admin, Employer, and JobSeeker.
- Includes dashboards, company management, CV uploads, and job applications handling.

School Attendance System

C#, Windows Forms, SQL Server, Entity Framework Core

- Built a desktop application for managing and automating attendance tracking.
- Designed for schools and organizations to record attendance and generate reports.
- Integrated with SQL Server and EF Core for data storage and management.

E-Commerce Website

HTML, CSS, JavaScript, Bootstrap

- Developed a front-end web application for mobile phone sales.
- Includes Admin & Seller dashboards, sales charts, and product/user/order management.
- Implemented shopping cart, checkout, and Visa payment simulation.
- Data and images stored locally using LocalStorage (Base64 format).

Technical Skills

.Net Technologies: .Net Core (API & MVC) – Microsoft Identity – LINQ – EF Core – OOP – Clean Code – Repository Design Pattern – Dependency Injection– SignalR – WinForms – Solid.

Database: SQL Server - T-SQL - Database Design - Entity Relationship Diagram (ERD)

Programming Language: C# – JavaScript – C++ – HTML – CSS – TypeScript.

Frontend & UI: Bootstrap – SCSS - Angular

Tools & Platforms: Git – GitHub – Swagger – Postman – VS Code – Visual Studio.

Interpersonal Skills:

- Communication: The ability to express ideas clearly and listen effectively to others.
- Teamwork: Working efficiently and positively with others to achieve common goals.
- Adaptability: Being flexible and able to adjust to new challenges or changing environments.
- Leadership: Guiding, motivating, and supporting others toward achieving objectives.
- Collaboration: Cooperating smoothly with teammates and valuing their input.
- Critical Thinking: Analyzing situations logically and making reasoned, informed decisions.
- Attention to Detail: Carefully focusing on accuracy and precision to ensure high-quality work.
- Creativity: Thinking outside the box to find innovative solutions and fresh ideas.

Languages

– Arabic: Native – English: Very Good (B2)
